CHAS. A. HOLCOMBE'S COLUMN.

DR. JOHN BULL'S
Great Remedies.

DR. JOHN BULL'S
Concentrated Extract of
BUCHU

COMBINED WITH
Bromide of Potassium.

Purchase a Bottle and carefully read direc-
tions.

BUCHU IS A STIMULANT, and of itself
may fail to effect a cure but Buchu,
when scientifically combined with Bromide
and other ingredients, pro-
duces a sedative effect, and causes a healthy
action, thus increasing the power of absorption,
alleviating irritation, causing all
the symptoms of pain and inflammation
to subside, and tends to be greater than
the wastes, thus preventing decomposition
and decay, and gives nourishment, health
and vigor to the system.

My extract is good for all diseases arising
from excesses; such as Weakness, and Pain
in the Back and Legs, Trembling in the
Skin, Scrofula, Gout, and all manner of Skin, Ulcers,
Tumors.

If your system is affected by any of the
above named diseases and diseases, relief is at
hand. Get a bottle of my Buchu and Bro-
mide of Potassium at once and you may rea-
sonably be cured.

I know just what I say. My record as
a Connoisseur of Medicine is second to no man
in the Southwest.

Twenty-five or thirty years ago, as my
fellow citizens knew full well, found me in
the hills of Kentucky, counter in the city in
which I now dwell; I have cured more people
of various diseases than all the physi-
cians in Louisville put together. Unfortu-
nately, I have been compelled to leave
the hills, and my practice has been silent,
and their efforts have been abortive.

My medicines are good and answer the
purpose. They are secret compound of good,
reliable articles.

I believe my Buchu and Bromide of Po-
tassium is the best article now in the mar-
ket for the cure of all diseases of the urinary
and genital organs, such as Nocturnal
Incontinence, Irritability of the Bladder
and Urethra, Inflammation of the Urines,
of the Kidneys, and all classes of diseases,
buy a dozen, bottle and be cured. Use as
per directions in all cases.

JOHN BULL, M. D.
Manufacturer and Vender of the
CELEBRATED

SMITH TONIC SYRUP.
FOR THE CURE OF
AGUE AND FEVER
OR
CHILLS AND FEVER.

The proprietor of this celebrated medi-
cine claims for it a superiority over
all remedies ever offered to the public for
the same, certain, speedy, and permanent
cure of Ague and Fever, and Chills and Fever,
whether of short or long standing. It re-
turns to the entire Western and Southwest-
ern country to bear testimony to the
truth of the assertions that no one who uses
it will be liable to any of the directions are
ever willing to take. If the directions are
strictly followed and carried out, in a
great many cases a single dose has been
sufficient for a cure, and in every case
have been cured by a single bottle, with a
few drops of the tonic, of the general health.
It is however, prudent, and in every case
more certain to cure, if it is continued for
a few days, and checked, more especially in
diseases and long standing. Usually,
this medicine will require two or three
bottles to be cured. * * * * *
The keep the bowls in order, should the
medicine require a cathartic medi-
cine after having taken three or four doses
of the tonic, a single dose of BULL'S VE-
GETABLE FAMILY PILLS will be sufficient

BULL'S WORM DESTROYER.

A extract of a Letter from Georgia.
VILLANO, WALKER COUNTY, Ga., June 29, 1866.

Dr. John Bull—Dear Sir: I have recently
given you my WORM DESTROYER, several trials
and failed in a single instance to have the
wished for effect. I am doing a pretty
large country practice, and have daily use
for some article of yours.

I am, sir, respectfully yours,

JULIUS C. CLEMENT, M. D.

P.S.—So unequal and numerous are
the testimonials in favor of my Worm De-
stroyer that I cannot find time to write
and tell them all. It is an infallible remedy for Worms. Try
it and be convinced. See my journal for a
more full description. JOHN BULL.

BULL'S SARSAPARILLA.
Hicks, Ky., April 1866.

Dr. Jones Bull—Dear Sir: Knowing the
efficiency of your Sarsaparilla, and the heal-
ing and beneficial qualities it possesses, I
send you the following statement of my case:

I was wounded about two years ago, and
taken prisoner, and remained for sixteen
months. Being moved so often, my wounds
had not healed yet. I have not sat up a
moment since I was wounded, and am now
through the hills. My physical health is
good, and need something to assist
nature. I have more faith in your Sarsa-
parilla than in anything else. I wish that
that is genuine. Please express me half a
dozen bottles and oblige. C. P. JOHNSON,

R. G.—Dr. Johnson was the son of a skill-
ful surgeon. His mother recommended to
her friends, and for many years used my
Sarsaparilla, and was satisfied with it. In fact
she is a Fever-sweat. Mrs. Johnson states
that the cures effected were almost miracu-
lous. Read my Journal for extended in-
formation and advice in your case. My
Journal contains a collection of eminent
persons, ministers and medical men—men
who are known here in this community for
integrity and veracity. I have recently
received a most remarkable certificate from
an eminent gentleman of Louisville.

Miscellany.

Items of Valuable Information.

Delaware has the past season shipped 78,904,800 pounds of peaches. The number of baskets 2,649,173.

Besides the public schools, Kansas has five universities, four colleges, two institutes, one seminary, one normal and two asylums.

The cost of fences in this country is estimated at \$360,000,000. In France and Germany a narrow path serves the same purpose.

The emigration returns of the port of Liverpool, for the month of October, show of 14,363 departures for the United States.

The first public building built in a Western town is a school house; the next a church. The Court-house and jail are not needed until a later period.

The Singer Sewing Machine Company have recently bought, in Chicago, the block formerly occupied by Field & Leiter's store, 150 by 160' feet, for \$330,000.

Chicago is rebuilding so rapidly that in one year from the night of the great fire, its effects will be scarcely visible. Everybody calls it Phoenix. We call it picket.

The Imperial representative of the double-headed eagle, since his advent upon the soil of the bald-headed eagle, has been titillated by thousands of double loons.

The farmers in the country are cutting their corn stalks, curing and housing for cattle feed, sowing as they tenderly gather them in. "Fodder, dear Fodder, come home with me now."

Furnace slag, hitherto considered useless, is about being utilized by casting from the furnaces into pavers, slabs, garden rollers, posts, pillars, etc., and also for the manufacture of chemical salts and cements.

There are thirty-five farmers in the Tennessee House of Representatives, and no meeting failed for want of a quo-rum during the session; and there were but one or two members who ever used intoxicating liquors to excess.

The titles to property in Chicago and Cook county are as good as they ever were. A few shyster lawyers have raised a hullabaloo about titles, to frighten landlords and feed sat on their incredulity. So says the Land Owner.

A Negro Argument.

An old negro named Pete was very much troubled about his sins. Perceiving him one day with a very downcast look, his master asked him the cause: "O, massa, I'm such a great sinner!" "But, Pete," said his master, "you are foolish to take so much to heart. You never see me troubled about my sins."

"I know the reason, massa," said Pete. "When you go out duck-shooting, and kill one duck and wound another, don't you feel bad about it?"

"Yes, Pete," said the master. "What was that coming next?"

"Well, massa, dat is do way wid you and me. De debil has got you set; but, as he am not s'ur ob me, he chases di child all de time."

The Heavy Snows.

We learn from the New York *Herald's* latest account from the great Plains and the Rocky Mountains that intelligence from those quarters, from day to day, still adds to the melancholy list of facts. The terrible scenes of travellers lost and frozen to death in those terrible Western snow storms, avalanches and drifts. We are glad to hear, however, that a wagon train of supplies bound for Spotted Tail and his band at their new reservation made its journey of two hundred miles without the loss of a man, though the brave men of this expedition were six weeks on the journey, cutting in some places through snow drifts a hundred feet deep, and through many of the men were seen to frostbitten and several dead.

The snow through which Napoleon's grand army had to pass in his way in its retreat from Moscow were mere trifles compared with these Western drifts a hundred feet deep and with these blinding Rocky Mountain storms of snow finer than the finest flower raging for several days and nights in succession without abatement, and with the thermometer at twenty degrees below zero.

The Immigration Folly.

The idea of Kentucky creating a bureau of immigration to compete in Europe with the immigration agencies of Wisconsin, Iowa and Kansas, is supreme folly, so long as the inducement we can offer immigrants are a pleasant climate and prospect of working after reaching her. Those people leave their native lands in order to better their condition. Most of the northwestern and western States competing for foreign immigration are the most unattractive. Men and women, children and infants, are hundreds and even thousands to each family. Will Kentucky be equally liberal? Has she the lands to donate? Will her land owners second any effort she may put forth to secure emigration by donating homes to immigrants or selling the lands at low rates and long time? Until these things are done it will be folly to the State to enter into the immigration business.

It is the most surprising and congenital of those prominent requisites, safety and health, that are wanting in the requirements of its use—a Preservative and Refresher of the Complexion. It is an excellent Lotion for the skin, and a specific for an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in connection with the Extract Buchu, Sarsaparilla, and similar Grapes, in such diseases as recommended, cannot be surpassed. Price, one dollar per bottle.

D

HENRY T. HELMBOLD'S IMPROVED ROSE WASH. cannot be surpassed in Face Wash, and will be found the only specific in every species of Cutaneous Affection. It specially eradicates Pimples, Spots, Scrofula, Dryness, Indurations of the Skin, Ulcers, Erysipelas, Inflammation, Herpes, Rash, Mat Patches, Dryness of Scalp or Skin, Frost Bites, and all purposes for which Salves or Ointments are used. It removes the skin of a sensitive nature, and removes cutaneous, mucous, and other secretions of the vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and desired. It is a specific for the cure of the principal claim to be patronized by physicians and surgeons of every class, and for all complaints incident to the sex which are due to the action of the blood. Its application is prescribed extensively by the most eminent physicians and midwives for unfeebled and delicate constitutions, of both sexes, and agrees entirely with the above diseases or symptoms.

O

HENRY T. HELMBOLD'S EXTRACT BECHU, THE GREAT DIURETIC, will cure every case of Disease in which it has been applied, and particularly of the bladder and kidney, of the kidney, ulceration of the kidneys and bladder, retention of urine, diseases of the prostate gland, stone in the bladder, calculus, etc., and all diseases of the kidney, and milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition, loss of appetite, fever, loss of memory, difficulty of breathing, weak nerves, trembling, horror of disease, wakefulness, dimness of vision, pain in the back, hot hands, flushed face, dryness of the skin, and asympathetic affections of the body, and universal laxative of the muscular system, etc.

Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, in the decline or change of life, after confinement or labor pains, bed-wetting in children.

B

Helmbold's Extract Buchu is diuretic and cathartic, and has a general effect, arising from habits of dissipation, and excesses in life, impurities of the blood, etc., superseding copious in affections for which Salves or Ointments are used. It removes the skin of a sensitive nature, and removes cutaneous, mucous, and other secretions of the vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and desired. It is a specific for the cure of the principal claim to be patronized by physicians and surgeons of every class, and for all complaints incident to the sex which are due to the action of the blood. Its application is prescribed extensively by the most eminent physicians and midwives for unfeebled and delicate constitutions, of both sexes, and agrees entirely with the above diseases or symptoms.

LADIES.

In many afflictions peculiar to ladies, the Extract Buchu is unequalled by any other remedy—as in the various forms of irregularities, and unfeebled suppression of currency, etc.,—and is a specific for the cure of uterine, leucorrhea or white, sterility, and for all complaints incident to the sex which are due to the action of the blood. Its application is prescribed extensively by the most eminent physicians and midwives for unfeebled and delicate constitutions, of both sexes, and agrees entirely with the above diseases or symptoms.

SATURDAY, :: MAR. 2, 1872.

Extension of Elizabethtown and Paducah Railroad to Hickman.

The Kentucky Legislature has granted a charter for the extension of the Elizabethtown and Paducah Railroad from Tennessee river to this place, and fixes Hickman as the Mississippi river terminus of said road. This extension, however, is in execution of the idea of Louisville for an air line road to Little Rock, and the South. An examination of the map will prove that the designation of Hickman by charter as the Mississippi river terminus is from just and well-considered reasons. It is the result of co-operating influences, which as above stated, looks to the building of an air line road from Louisville to Little Rock via Elizabethtown and Paducah road to Tennessee river, thence through Marshall, Graves, Hickman, and Fulton, to this place; thence via Mississippi Levee Road to Point Pleasant in Missouri; thence via the Point Pleasant plank road (now converted into a railroad corporation) to a point intersecting with the Cairo and Fulton road to Little Rock. This route—we are advised, is many miles shorter from Louisville to Little Rock than any other in contemplation.

The means for the building of this line is obtainable, and already partly provided for. Fulton county through our Mississippi Levee Company is prepared to raise money equal to the building of the dirt work from Hickman to Point Pleasant, and our Missouri friends are already organized and at work, through State aid and private donations, to convert their plank road into a railroad, which will furnish the necessary intersection with the Cairo and Fulton. This leaves the gap between Tennessee river and Hickman, to be provided for. This gap runs through the heart of the rich counties of Marshall, Graves, and Hickman, passing directly through the towns of Benton and Mayfield, and crossing the Mobile and Ohio at Moscow. The line, therefore, must attract great local popularity as it will, necessarily run nearly through the edges of these counties to obtain it; but in any event the Hickman line has considerable advantage in the distance from Louisville to Little Rock. The fact that the Hickman line runs through the very center of the counties named, and to the advantage of important towns, must give the line great popularity with the people. Hence it is that Senators Hale and Gilbert, knowing the interest and preference of these counties, procured the charter as above stated.

That this line will excite opposition; and that the Columbus route, or Cairo route, may be decided upon in preference; or that the extension may never be made, are all probable; but at present the Hickman line appears to be preferred. We do not desire to excite any undue hope in our own town, or in the counties and towns in Western Kentucky, along the proposed line, for after all, the building of the proposed line depends mainly upon the material aid we shall give. We are disgusted with that railroad enthusiasm which builds great lines of railway, on paper, in the imagination, or through the public prints, without a dollar basis. Such a state of feeling works great injury to the community. There is nothing, either in geography, nature, or the necessities of trade which absolutely compels this road to come to Hickman—in other words our route while evidently the best and most practicable is not so superior to others as to force the road on us without any assistance on our part; but it is obtainable. The town of Hickman, with the exception of Paducah, possesses more real wealth and surplus capital than any of our neighbor towns, and if she will lead off in proportion to her ability, the enterprise is assured. If not, the road when built must find another line.

Capt. Tyler, the President of the Mississippi Levee Company, and others of known energy and capital, are earnestly at work in behalf of the enterprise; and their uniform successes almost lead us to predict success in this.

The proposition, however, is before the people of Marshall, Graves, Hickman and Fulton, and of the towns of Benton, Mayfield, Moscow and Hickman; and while other substantial propositions are maturing, we submit the matter for public consideration. We beg the people and towns along the proposed line to consider the advantages to their respective localities, and remember that some little help is expected from each.

Radical Meeting in Hickman County.

The Republicans of Hickman county held a meeting at Columbus last week, at which W. K. Hall was elected Chairman and Mr. W. F. Donaldson, Secretary. The meeting passed resolutions endorsing Grant's Administration, and recommending his renomination for President. It also denounced the movement of the Liberal Republicans for a convention at Cincinnati, and indulged in needless affirmations of faith in the Republican party, the whole of which means that W. K. Hall wants to be postmaster again.

The Spirit of our Local Press.
They Have a "Youthful Leader" on the Slip.

The paper heretofore published at Paducah, Ky., under the name and style of "The Paducah Kentuckian," has by special enactment of some Legislature, and especially by public opinion, had its name changed to that of "The Youthful Leader," the better to describe its aims and aspirations, and will hereafter be known in law and to the public by said title. The immediate cause of this enactment on the part of the Legislature, was in the fact, that said paper, when known as the Kentuckian and acting as a Democratic journal, did, violently, and without good and sufficient reason, assail the Democratic party through its chosen Representatives, making charges of gross corruptions and dishonesty against the same, and when called to the stand by its brother Democratic journals, did utterly and ingloriously fail to produce the same, or to name names whereby the party might defend itself against such accusations, or rid itself of such Representatives; and it was feared, that such indiscipline and lack of political acumen, might destroy its future usefulness as a sincere and faithful democratic journal, therefore to relieve it of such pressure, and that it may speed on its appointed mission as "The Youthful Leader," its name was changed in accordance as above.

The Columbus Dispatch, whose great fault is having a merry heart and a merrier pen, points a humorous article at the Youthful Leader, which but for our knowledge that the Dispatch appears too highly facetious, might perfectly convincing in accordance as above.

This "circumstantial evidence" has been presented day after day, in all the tempting garb of language by the Kentuckian, and backed by its endorsement and high standing as a journal, and yet has failed to attract the serious consideration, or to obtain republication in the columns of a single Democratic paper in Kentucky. Can this evidence, therefore, be so astounding? Or, is every Democratic paper in the State partico-kratized in the alleged corruptions and dishonesty in the Legislature?

If the Kentuckian would prove this, as it is often charged, it would be a decided compliment to the value of the Gazette for help, beseeching them to stand by it. The Dispatch hears the cry. It says:

"The Kentuckian is a poor movement, as it is familiar to all, which has been gradually losing strength for years past, has assumed proportions and taken an organized form, which cannot be slighted."

The recent convention at Columbus, was a failure, and the young and intelligent and liberal men, who have directed much thought and attention to the interesting questions connected with labor and who represent a large and influential constituency in every State of the Union. The course of Radical legislation and policy during the last ten years, has been such as to operate most disastrously on the best interest of the toiling millions, and to create classes and distinctions, wholly inimical to the genius and spirit of free institutions.

The latest dispatches from Mexico indicate a series of almost fatal disasters from the Juarez Government. If we could receive them as entirely accurate we should have little hope of the permanence of the present Government. But these dispatches are evidently colored by hostility of Juarez, and it is possible that he may still weather this storm, as he has many others. Two curious rumors are abroad; one that Juarez is about to resign the Presidency in favor of Majia Diaz, Minister of War; and the other, that General Grant has offered to sustain President Juarez in power as a last resort. The Mexicans who believe in this arrangement think the time has come to put it in execution.

"Frost" is imminent; and after reviewing the fact that our Paducah neighbor was as silent as death about these alleged charges of corruption until after its defeat for binder, it continues:

"The Paducah Kentuckian is a poor newspaper, and with them flaming excoriations, we will label their political skele-

skeletons 'condemned.'

The Dispatch is inimitable; and after reviewing the fact that our Paducah neighbor was as silent as death about these alleged charges of corruption until after its defeat for binder, it continues:

"These fits are monitory; upon a thought I will again be well—(Shakespeare).

These ill-advised charges have so infected his mind that he carries them with him everywhere, reminding us of the chidish rhyme,

Charlie has a little corn,
Upon his little toe;
And every where that Charlie went,
The corn was sure to go.

So much so that he now really imagines that his fierce outcry against alleged corruptions, had somewhat to do with locating the new Lunatic Asylum West of Tennessee river!

But, as there appears no real grounds for the Kentuckian's charges of corruption against any of our Democratic representatives, the case falls; and we dismiss it.

The earth hath bubbles, as the water has, And these are them.

The Political Outlook.

The Republican party is now split irretrievably and beyond remedy.

Schurz, and Trumbull, and a host of other prominent leaders, have cut loose entirely from the old organization, and will participate in and abide by the Liberal Convention which is to assemble in May in Cincinnati.

The indications are that Senator Sumner will act with them.

If the Cincinnati Liberal Convention puts forth a Presidential ticket, the Democratic National Convention when assembled will ratify it. If it declines to nominate, the Democracy will most likely name one of their number for President, and thus unite all the conservative elements.

The New Apportionment.

We publish on our first page, the arrangement of the Congressional Districts of this State, as reported by the committee to the Legislature, and which will no doubt be adopted. The Louisville Commercial (Radical) compliments the fairness of the apportionment. The arrangement gives the Republicans one District, and a pretty good show for two. The First District loses two counties, Caldwell and Webster.

A "Musn."

The political press of the Congressional district, are pretty generally looking-horns, and ready racing for an old fashioned plus minus.

A family quarrel is at all times dangerous to those of peaceful disposition living in the same neighborhood.

Therefore we cannot avoid noticing the intelligent attitude now assumed by these gentlemen, and rejoice that we stand on an independent platform and out of range of the fire of their guns—Paducah News.

Our new neighbor is at fault; there is no "musn" brewing or existing. "It is only the SEAR(s) and yellow leaf," which cause your gloomy foreboding.

The defection among the conservative republicans to the Grant dynasty is becoming wide spread. Morton has formally renounced the office of Public Binder. We are sorry for you, dear Kentuckian, whether they be true or false.

If false, you are certainly involved.

If true, the people will ask why your expose came only since your failure to secure the Public Binding, and the sensation you would have created, and the glory you might have won, had you heard the lion sooner, will all be lost.

Again it euljels the Kentuckian.

(Gra'mercy, Gazette, have you no feeling for the tenderage of The Youthful Leader?)

The Hickman Courier says: We defy the Paducah Kentuckian to point to a single instance where it ever bodily espoused the cause of any First District man for any position.

"Yes, brother Warren, and you could have safely defied it to point to a single instance where it ever bodily espoused any cause.

The Hickman Courier says: We

The Hickman Courier says: We

THE HICKMAN COURIER.

SATURDAY, :: MAR. 2, 1872.

Geo. P. Bowles & Co., 46 Park Row, New York, and S. M. Pettengill & Co., 37 Park Row, New York, are our sole agents in that city, and are authorized to contract for advertising at our lowest rates.

THE HORSE AND JACK.—We are prepared to print horse and jack bills on shortest notice and lowest prices. Send in your orders to the Courier Office.

RELIGIOUS.—There will be Episcopal service at the Methodist Church, Sunday, 3 o'clock, p.m., by Rev. N. N. Cowgill.

We are in debt to U. S. Senators Stevenson and Davis, and Congressmen Beck and Crossland, for public documents.

The school of Messrs. Roulhac & Cowgill, has commenced the spring term, with increased patronage, and large acreages are expected upon the adjournment of the Free school.

The freight block at this point continues to increase, our Railroad being by no means equal to the demand. Double the freight is received here this season than was the past.

COL. MORRIS, chief engineer N. & W. R.R., has been in Hickman this past few days, supervising the work of driving piles at our wharf.

BERNARD'S CHILL CURE acts on the liver and bowels. Bernard's CHILL CURE contains nothing injurious.

It is estimated that there has been enough corn shipped at Hickman this year via Nashville, and Northwestern Railroad, to supply more than half the Southern States.

TRY BERNARD'S CHILL CURE and be convinced of its merit. Why suffer from Fever and Ague, when Bernard's CHILL CURE will cure you.

The slave trade at Hickman, the past season, has been very large. W. L. McCutchen, paid out for the one firm, L. Adams, Jr., over \$23,000, besides there were other dealers having headquarters at this place.

The Louisville *Ledger*, has suspended publication as a morning paper; but now appears as an evening journal, the first number of which is now before us, as rich and ready in all its departments as before.

From the Government Sale.

We will receive in the next week a large lot of harness, pistols, guns, saddlery, clothing, and various other articles, too numerous to mention. Call soon and secure great bargains.

J. H. PLAUT & BRO.

mar2 3w.

Free School.

ALL persons who have not the Company school during the present session, and have not paid their contingent fee, are hereby notified to call at S. N. White's school. A word to the wise is sufficient.

S. N. WHITE, Collector.

FULTON ACADEMY.—Prof. L. M. Boyle, proposes opening a private school at the Fulton Academy building, on Monday, the first day of April. Prof. Boyle has had charge of the Free School in this District the past session, has previously taught in this community, and our school patrons are well acquainted with him as an educator of experience. He will be assisted by competent teachers if necessary. See advertisement.

Last Call!

ALL those indebted to me, note or account, are requested to pay up, as I am determined to close all outstanding claims and in future sell for Cash or its equivalent. Respectfully, S. N. WHITE.

THE BEST.—We beg to remind the people of Hickman and Fulton counties, that Mr. Blackford, the agent of the Howe Sewing Machine, is still in the business, and can at present be found at his office, Campbell's gallery, Hickman, Ky. This machine is esteemed by many as the best Sewing Machine made; and as Mr. Blackford has every variety on exhibition, and is desirous of making sales, we trust those desiring to buy will give him a call. He is our judgment, an excellent agent, and thoroughly understands his business.

Just Received.

1,000 Brown Drill Shirts—fifty cents. J. H. PLAUT & BRO. feb-10 tf.

PIANO FOR SALE.—Mr. Jno. D. Walker, Jeweler, has a first rate second hand piano, for sale, which he offers for \$75. The instrument is in good tune, and well adapted for young Misses practicing.

Corn Wanted.

J. H. PLAUT & BRO., want 10,000 bushels of corn in the shuck, for which they will pay the highest market price. To be delivered immediately.

jan20 tf.

For SIXTY DAYS.—The New York Stars propose selling, for the next sixty days, their splendid stock of fall and winter goods, at cost, in order to close out stock preparatory for the spring and summer trade. Their goods were selected in the Eastern cities, in person, from the best houses, and their stock will favorably compare both in quality and prices, with any competing houses. The trading public of Hickman and surrounding towns are now pretty well acquainted with the uniform liberality and fairness with which business is conducted at the New York Stars, and those who have not such practical experience, need only try them, to be satisfied. In order to make room for their spring stock and to close out their fall and winter stock, they will sell goods during the months of January and February at costs only adding freight. Give them a call and secure bargains. They are now for anxious to obtain their goods and wait no time, and charge nothing for examining their stock. Remember the sign of the New York Stars.

Our Hickman Manufacturers.

It is really surprising, as well as gratifying, to see the amount of work and business done by Herkwick, Baltzer & Co.'s, Steam Wagon and Plow Factory. Most of our own citizens even are not aware of the extent and value of this establishment. At the close of the war the members of this firm had a local reputation for making the very best wagons and plows; they were in moderate circumstances, but all of them practical workmen—not being able to put up an establishment singly, they combined for that purpose, and for several years did a good business, blacksmithing and making wagons, all of which was done by hand. About two years ago their prospects were so encouraging that they concluded they would enlarge their establishment, purchase all the late improvements in machinery for that purpose and apply it to steam power. They went to work, built suitable houses and engaged to manufacture by steam. Many conservative people said they were venturing too far, and others thought they would fail entirely; but fortune favors the brave—they had faith, skill and manly energy. They began and have worked perseveringly which has brought the rich results their courage and faithfulness so richly merits.

Under their old system, their trade was local and limited. They sold only to our vicinity, and from 50 to 75 plows and 20 or 30 wagons annually. Now their custom extends as far South as Georgia, Alabama and Louisiana. All their work formerly was done in tenement, now they have four—blacksmith shop, ware room, room for wood work and paint shop, besides the factory proper. Then, they performed all the labor themselves, now they have at times 30 workmen engaged; they now have from 500 to 1000 plows and as many wagons annually, besides they do planing, blacksmithing, turning, and ornamental wood work. They are shipping their manufactures to points all along the railroads South, as well as to numbers of towns one the river below. They have custom all through our back country and are filling orders as fast as they can, and their press of business is such that they are putting up additional machinery, constantly; and we predict still further enlargements.

OSWALD'S FURNITURE FACTORY.

Two citizens of Hickman, Mr. Gid Garret and Mr. Dick Isler, were shot at, while in the woods hunting Wednesday last. No particulars inquired for.

The snow which fell Wednesday last, after the balmy spring-like weather, checked gardening and such operations, which were being prepared pretty lively.

ERRATA.—In the article "The Spirit of our Local Press," the printer makes us say, "These fits are momentary." The original is "These fits are momentary," and we so wrote. We offer this explanation in advance!

GOV. BROWN, of Tennessee, has issued a proclamation, convening the Legislature of that State in extraordinary session, to assemble at Nashville, March 12th, 1872.

We learn from the Henderson *Reporter*, that smallpox is prevailing in that city. We also learn from the Owensboro *Monitor* that the same deadly malady is prevailing in that city.

A correspondent of the Mayfield *Democrat* states that sixteen hundred dollars was subscribed at a recent meeting at Mount Olivet to build a school-house at Louis's Cross-roads, about midway between Mayfield and Lovelaceville. He found near hear all sorts of timber used in making furniture, ash, oak, poplar, walnut, cherry and gum, in abundance; he was familiar with the cost of making furniture North of us; and after surveying the whole ground and studying the question thoroughly, he came to the conclusion that he could make furniture and sell it here cheaper than it could be made in Cincinnati and other places North and East of us, and that if he could do this he thought he could sell all that could be made. In other words, he saw that this was one of the very best points to manufacture furniture in large quantities, cheaply. But where there is a will there is a way; he kept persevering until he induced capital to back him. He bought the best improved machinery, erected his factory, and began to make furniture. At first it was an uphill matter—he sold to our vicinity until the demand was apparently satisfied and it seemed for a short time that his sales would stop. At this juncture it became certain that if furniture was sold, customers must be sought for that would buy it; and the firm commenced then what they should at the first have adopted, a system of advertising and drumming, thus arousing buyers of what they had for sale and profit.

No sooner done, than orders came pouring in from all quarters, so that at this time they cannot supply the demand. They have about twenty hands constantly at work, manufacturing all kinds of furniture, ornamental wood work, brackets, &c. Their business extends South into Georgia, Alabama, Tennessee and other States. In the Memphis market their furniture is very popular and readily sold. Merchants along the line of our railroad, find that they get cheaper and better articles at this establishment than elsewhere, and are beginning to purchase all in their line from our enterprising manufacturers. We bid this wide awake firm God speed. Our manufacturing establishments are of incalculable value to our place.

PROGRESS OF THE REVOLUTION.

A new light dawned upon the world with the introduction of PLANTATION BITTERS. It was a glorious epoch, for the world was won out—restoration and renovation came in.

The eyes of the people were opened to the great fact that the way to cure disease is to strengthen the body to support its victims, rather than to let it die, and to weaken them of the little strength they have. It soon became evident that as a means of infusing the system with a due proportion of the strength and energy of the body, it was a most effective balsom, a tonic, a restorative, forming a balsom habit of body, no medicinal preparation then known was at all comparable to the new restorative. Since then it has been a success, and has been followed to rival the Bitters. They have all failed, and the GRAND REVOLUTION IN MEDICAL TREATMENT, which was commenced in 1863, is still in progress. Nothing can stop it, for it is founded on the principle; now universally acknowledged, that physical vigor is the true foundation of health, of all human ailments, and experience has shown that PLANTATION BITTERS is a peerless invigorant, as well as the best possible safeguard against epidemic diseases.

A NEW PAPER.—An association of printers, under the style of "The Paducah News Company," have commenced the publication of a new paper, at Paducah, the Paducah Daily *News*, the first number of which is on our table. Its columns are lively, well written, and have an air of independence which adhered to most make it a popular journal.

It starts out with the intention of being "independent in all things, and neutral in none." It exhibits one feature we greatly admire, the refusal to make big promises or to bolster itself by the press to their own disgrace and the disgust of the public. The *News* take a practical view of business, and we wish it practical success.

GEN. SHERMAN and party were accorded an interview with the Pope.

SOME OF THE RESULTS.

No wonder there are no vacant houses in Hickman for rent. These establishments have brought here, and are now giving employment to forty or fifty skilled workmen, and their families are quite an acquisition to our population. This increased population, of course, makes an increased demand for clothing, dry-goods, groceries, etc. Now who pays for all of this? Where does the money

come from? Let's see: our manufacturer sells a car load of his manufactured articles to a merchant in Georgia, (as was the case last week for \$1,800) this money, except the profits, he pays to his hands and the lumber men, who in turn pay it over to our merchants and grocers, for supplies, or out for such articles of use and commerce as they may see proper. Thus you see the money comes to our place from Georgia, and other States to which our manufacturers ship. These factories assist the farmer to sell his timbers, the mill man to saw it, the mechanics to manufacture it remuneratively enabling him to buy and pay for goods, wares, etc. Every department of business in our midst is aided by them. We are far ahead of our neighbors, but we want Hickman to be the greatest manufacturing town in this section.

The fact is being established that money invested in manufacturing establish-

ments pays a better per centage than the same amounts in groceries, dry goods, or United States bonds.

FOREIGN MARKETS.

COTTON.—In New Orleans on the 1st, quoted at 22 $\frac{1}{2}$ but depressed, and considerably danger-

ous.
